

JAYA PRAKASH SANGEM

Associate Implementation Consultant — X12 EDI — HIPAA — Edifecs — Healthcare Integration

✉ jayaprakashsangem@gmail.com — ☎ +91-93903-62960 — 🔗 LinkedIn — 🐙 GitHub — ORCID

PROFESSIONAL SUMMARY

Healthcare EDI Implementation Consultant with experience delivering HIPAA-compliant X12 integrations on the Edifecs platform for US healthcare clients. Hands-on experience across X12 transactions, healthcare interoperability, API orchestration, payload transformation, business-rule validation and production support. Contributed to the successful delivery of Humana's real-time 276/277 claim status solution, supporting 200K–300K daily transactions and reducing turnaround time by 80%.

Certified Edifecs Map Builder Professional with experience collaborating directly with client stakeholders, participating in solution design discussions, performance optimization initiatives and healthcare integration delivery.

KEY ACHIEVEMENTS

- Reduced Humana 276/277 transaction turnaround time by **80%** (13.5s → 2.5–3s)
- Supported production workloads exceeding **200K–300K healthcare transactions per day**
- Validated healthcare integration platform at **65K records/hour** and **100 concurrent SOAP threads**
- Received formal written appreciation from **Humana** during Phase-1 go-live delivery
- Earned **Edifecs Map Builder Certified Professional** certification

TECHNICAL SKILLS

- **Healthcare EDI & Interoperability:** X12 (276, 277, 837I, 837P, 837D, 835, 270, 271, 278, 834, 820, TA1, 999, 277CA), HIPAA Transactions, Healthcare Claims Processing, Claims Lifecycle, Healthcare Interoperability
- **Healthcare Domain:** Payer Systems, Provider Systems, Eligibility Verification, Claim Status Inquiry, Prior Authorization, Remittance Processing, CAQH CORE Operating Rules
- **Edifecs Platform:** MapBuilder, SpecBuilder, Transaction Manager, EAM, Route, DataFlow, Native Translator
- **Integration Technologies:** SOAP, REST APIs, JSON, XML, Payload Mapping, Data Transformation, API Orchestration
- **Programming & Automation:** Groovy, JavaScript, Python, SQL, Linux Shell Scripting
- **Data & Analytics:** Power BI, Advanced Excel, Pandas, NumPy
- **DevOps & Cloud:** Git, GitHub, Docker, Kubernetes (Learning), AWS (Learning)
- **Healthcare Standards (Learning):** HL7, FHIR

PROFESSIONAL EXPERIENCE

Edifecs (Acquired by Cotiviti India)

Associate Implementation Consultant

Associate Implementation Consultant Trainee

Mohali, India

Jul 2025 – Present

Jan 2025 – Jun 2025

Humana (USA) – Real-Time 276/277 Claim Status Service Modernization

- Designed and implemented end-to-end real-time healthcare EDI workflow for X12 276 claim status inquiries and X12 277 responses using Edifecs middleware
- Integrated CORE APIs and ECIS services for claim lookup, member validation and transaction orchestration
- Built payload parsing, transformation and response generation logic across JSON, XML and X12 formats
- Consolidated Groovy pipeline components and optimized transaction processing, contributing approximately 2 seconds toward overall turnaround-time reduction

- Collaborated with senior engineers on Native Translator tuning, thread optimization and production performance improvements
- Implemented client-specific error handling framework covering timeout, member-not-found and DOB-mismatch scenarios using X12 STC segments
- Participated in daily client discussions, requirement clarifications, solution demonstrations and production readiness activities
- Received formal written appreciation from Humana for successful Phase-1 go-live delivery

State of Colorado Healthcare Project

- Developed X12 837I to XML mapping solutions using Edifecs MapBuilder
- Implemented conditional element-level mapping logic and healthcare transaction transformations
- Tested custom Edifecs profiles integrated with CAQH CORE validation services

YoShops.com

Data Analyst Intern

Remote

Jan 2023 – Mar 2023

- Cleaned and transformed business datasets using Advanced Excel and Power Query
- Built Power BI dashboards and automated reporting solutions supporting business decision-making

EDUCATION

BV Raju Institute of Technology , Narsapur, Telangana	2021 – 2025
B.Tech in Artificial Intelligence & Data Science	CGPA: 8.42 / 10.0
TS Residential Junior College , Keesaragutta, Telangana	2019 – 2021
Intermediate (M.P.C)	SCORE: 908 / 1000
New Nalanda High School , Tandur, Telangana	2019
Secondary School (SSC)	GPA: 9.2 / 10.0

CERTIFICATIONS

- Edifecs Map Builder Certified Professional
- Edifecs SpecBuilder Certified Associate
- EDI in US Healthcare – Edifecs
- Git, GitHub & GitLab: Proficient – Edifecs
- Docker Foundations Professional Certificate – Docker Inc.
- Postman API Fundamentals Student Expert
- Business Intelligence using Advanced Excel & Power BI (Grade A1)
- SQL (Basic) – HackerRank
- Machine Learning Training – Internshala

RESEARCH PUBLICATIONS

Lung Cancer Classification via Transfer Learning using VGG-19 Dec 2023

- Achieved 98% classification accuracy using transfer learning and fine-tuned VGG-19 architecture.
- Published in the *International Conference on Emerging Frontiers in Engineering, Technology and Science (ICEFEET 2023)*.

Brain Tumor Classification using EfficientNet-B6

Jun 2023

- Achieved 99.61% accuracy with 100% precision and 99% F1-score across 7,023 MRI images.
- Presented and published in the *International Conference on Computational Intelligence and Informatics Processing (ICCIP 2023)*.

RECOGNITION & OPEN SOURCE

- Formal written client appreciation from Humana for successful Phase-1 go-live delivery
- Contributor, Deep Learning Simplified (GirlScript Summer of Code 2024)
- Received Maintainer Appreciation Certificate for open-source contributions
